THE NATURE
OF THE FUTURE

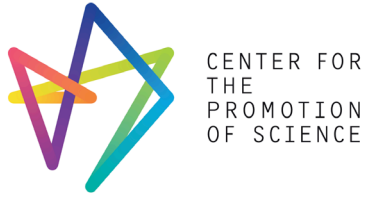

We will now break up in groups – Camilla, Mairéad and Lale each host a group discussion, with a focus on these respective themes:

- ❖ Mairéad: on finding a shared way of working when disciplines have very different approaches
- ❖ Camilla: on working with scientists and activists
- ❖ Lale: on integration and appropriation through participatory methodologies involving scientists, artists and citizens

CENTER FOR
THE
PROMOTION
OF SCIENCE

Future art+science calls:

- ❖ climate data, research and services – global, Serbia (1x autumn 2023, 1x spring 2025, HE Climateurope2 project: climateurope2.eu)
- ❖ digital realm, tech and AI assessment: public services and administration, media, ethical concerns – global (13x autumn 2023, CE EUDigitalDeal project: ars.electronica.art/eudigitaldeal/en/)
- ❖ industrial heritage – Croatia, Slovenia, Serbia (9x spring 2024, CE FASIH: artandscience.rs/en/fasih)
