

The crystal ball challenge:  
imagining the perfect exhibition on  
the climate and energy crisis

# Energy Junkies: Scaffolding, pallets, cartboard

Lizzy Bakker  
Sr. exhibition maker  
NEMO Science Museum

**New exhibition... a fresh start!**

A vibrant rainbow arches across the top half of the image. Below the rainbow, a field of golden stars of various sizes is scattered across the white background. The text 'AGING & FUTURE HEALTH' is centered within the rainbow's arch.

**AGING &  
FUTURE HEALTH**

A & S  
SPECIAL

**What is blocking us :**

**How to create a fresh design when  
reusing materials is your starting point..?**

# Exhibition Urgence climatique / Climate emergency

Adrien Stalter  
Sr. exhibition maker  
Universcience

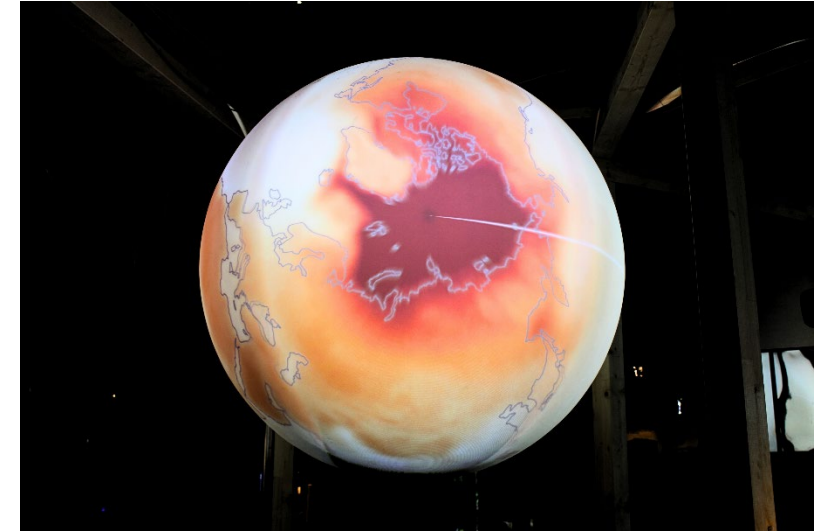

# Exhibition Urgence climatique / Climate emergency

Paris carbon footprint

Food emissions

IPCC scenarios showed on a sphere

**150 graphic panels**  
**multiple AV & multimedias devices**

**A lot of datas and information  
for a 10 years long exhibition**

**What is blocking us : Making an  
exhibition whose content lasts**

Paris carbon footprint

Food emissions

IPCC scenarios showed on a sphere

**150 graphic pannels  
20 AV devices**

**10 multimedias devices**

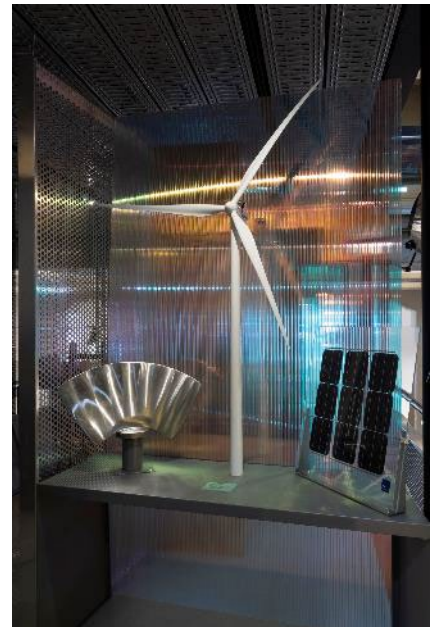

Jürgen Öhlinger  
Curator and exhibition manager  
Technisches Museum Wien

# Wettlauf mit der Zeit / Time to act

An exhibition on sustainable energy consumption

What is blocking us: How should we tell the story?

What else is blocking  
us ?

In 2030 ....

‘Any useful statement about the future should feel ridiculous’
