FORUM

THE FASTEST WAY TO CONNECT WITH DECISION MAKERS

ABOUT THE ECSITE DIRECTORS FORUM

In previous years the Directors Forum was attended by approximately 70 CEOs and Senior Managers to exchange views, make trends and discuss key developments in science engagement.

Due to the pandemic, this year's edition will be hosted online, opening new possibilities for wider networking and strategic discussions, challenges and opportunities brought by the digital prevalence.

This year the online event is facilitated and co-organised by **TECHNOPOLIS**, the Flemish Science Centre in Mechelen (Belgium).

The forum will run from 13.00 to 18.00 CET on 29 October and on 30 October from 10.00 to 13.15 CET.

TECHNOPOLIS
✱ ⚙ ⚖ ⚙ ⚙ ⚙

The theme of the event is: 'It's online'. Technopolis considers the organisation of Ecsite's online Directors Forum a way of showing the world Technopolis is ready to embrace the opportunities arising from new technologies and to lead the way. It's on!

The online event opens the floor to conversations around fast digital adoption and discussions on its challenges and opportunities.

The event provides a trusted arena where Directors and Senior Managers step back from their daily business and explore new opportunities.

Instead of a typical market place with booths, the first online Directors Forum provides a **virtual space** where attendees and company representatives can **connect** in between sessions and **exchange contact** details.

Dear Colleagues,

Due to the pandemic, this year's **Ecsite Directors Forum** will be online, hosted by **Technopolis**, the Flemish Science Centre in Mechelen, Belgium.

Despite not being together in the same physical place, **Ecsite Directors** and Senior Managers will experience a stimulating online event, with opportunities to network, exchange, and get inspired.
