

EU MISSIONS

Concrete solutions for our greatest challenges

29 September 2021

EU Missions are about what we can do together to shape the future we want to live in.

FIVE MISSIONS

Missions have ambitious goals and will deliver concrete results by 2030.

cancer: improve the lives of more than 3 million people

make 150 regions and communities **climate resilient**

restore our **ocean and waters**

achieve 100 **climate-neutral and smart cities**

create 100 living labs and lighthouses to lead the transition towards **healthy soils**

NEW WAYS OF WORKING

Missions set clear goals to be achieved by a fixed date. They provide the right conditions and funding that will enable researchers, innovators, policy makers, businesses and citizens to act together.

PEOPLE AT THE HEART

EU Missions will inspire and empower citizens to improve their lives and those of others.

People are at the heart of EU policy making, through local experimentation and bottom-up solutions such as citizen science actions, hackathons, contests or events.

This is our chance to work together towards a healthy, green and digital future. This is our mission.

ROOTED IN RESEARCH AND INNOVATION

Part of the Horizon Europe research and innovation programme, **missions stem from research and innovation and aim for more!**

Horizon Europe provides initial funding of up to **€1.9 billion** for the first three years.

Missions will directly support the EU priorities:

- European Green Deal
- New European Bauhaus
- Europe fit for the Digital Age
- Europe's Beating Cancer Plan
- An Economy that Works for People
- EU's Long-term Vision for Rural Areas
