- National Collections Centre

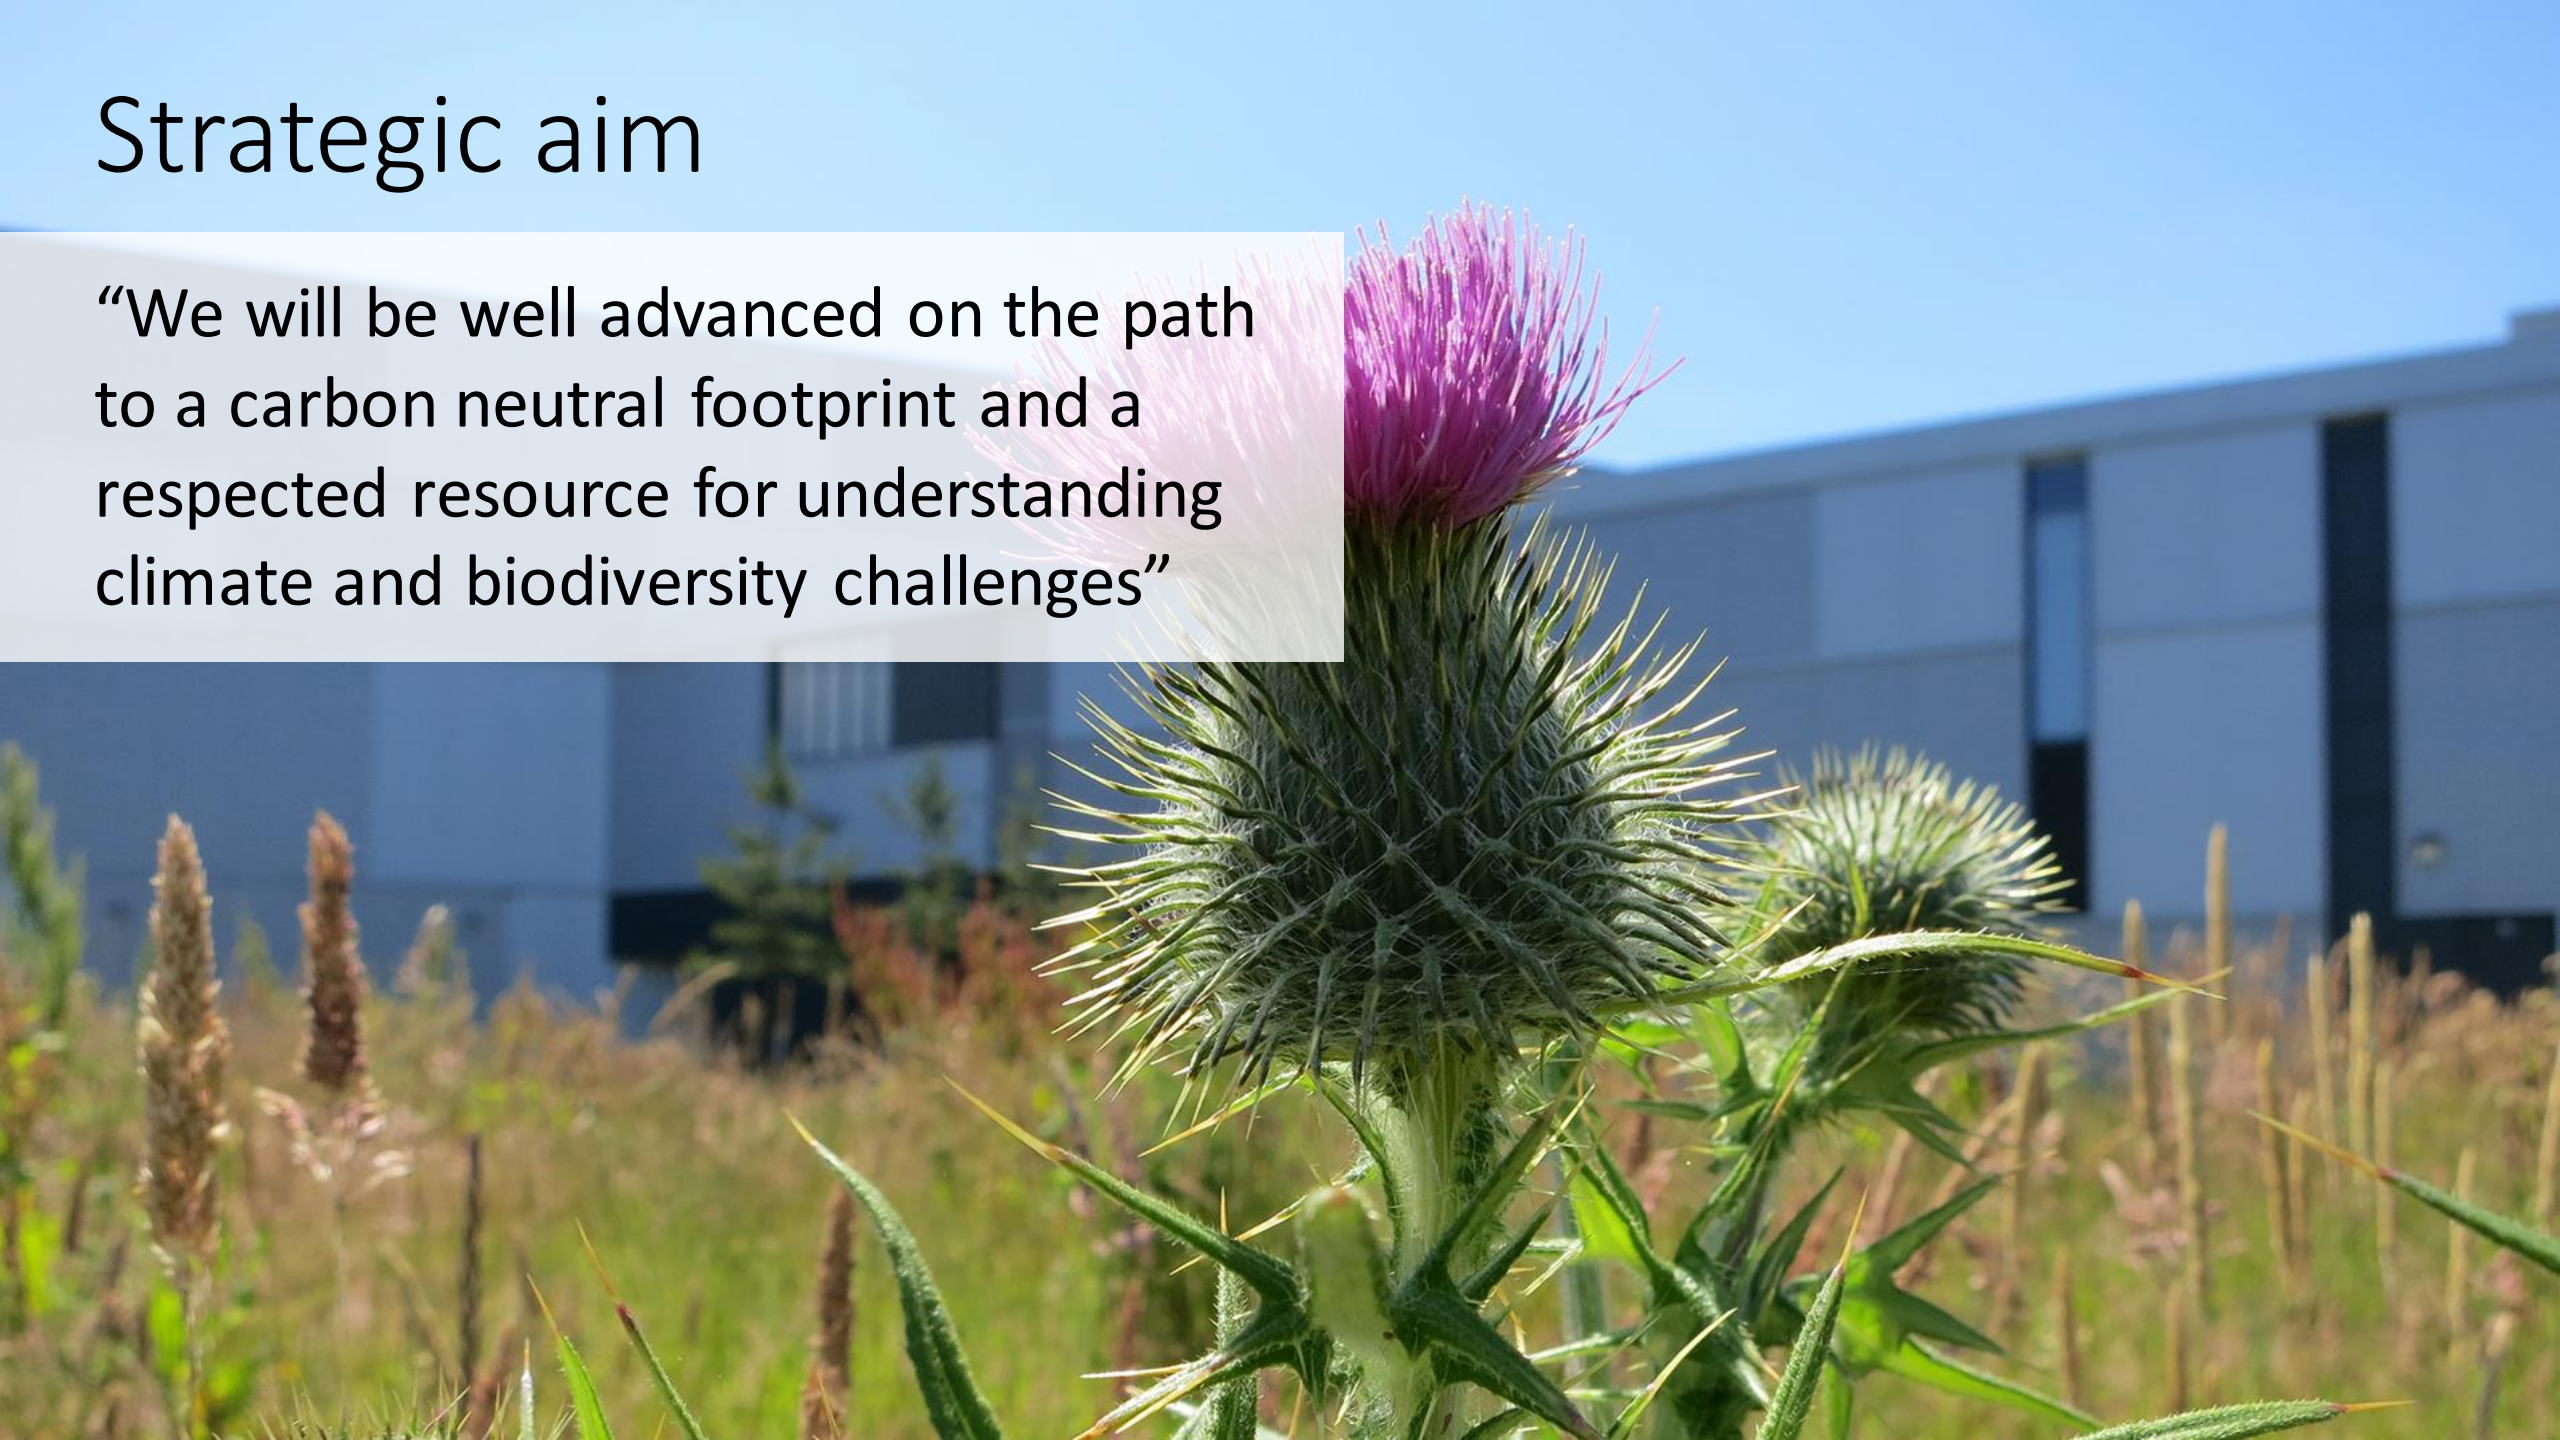

The Scottish Government has "set the toughest statutory targets on carbon emissions for any country in the world"

- Scottish Government, 2020

Strategic aim

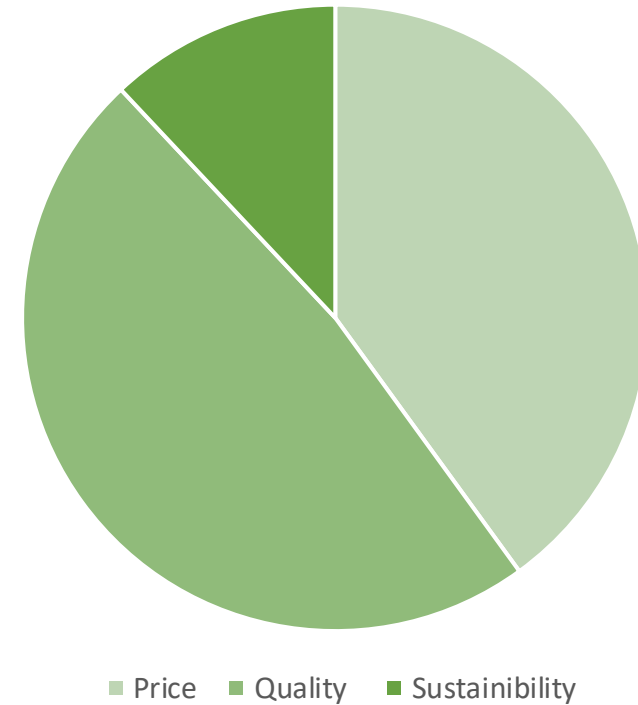

“We will be well advanced on the path to a carbon neutral footprint and a respected resource for understanding climate and biodiversity challenges”

Procurement

- Sustainability policy
- Approach to reducing waste
- Approach to reducing carbon emissions
- Approach to recording carbon emissions

Rising Tide exhibition fit-out contract: score weighting

Recording carbon emissions

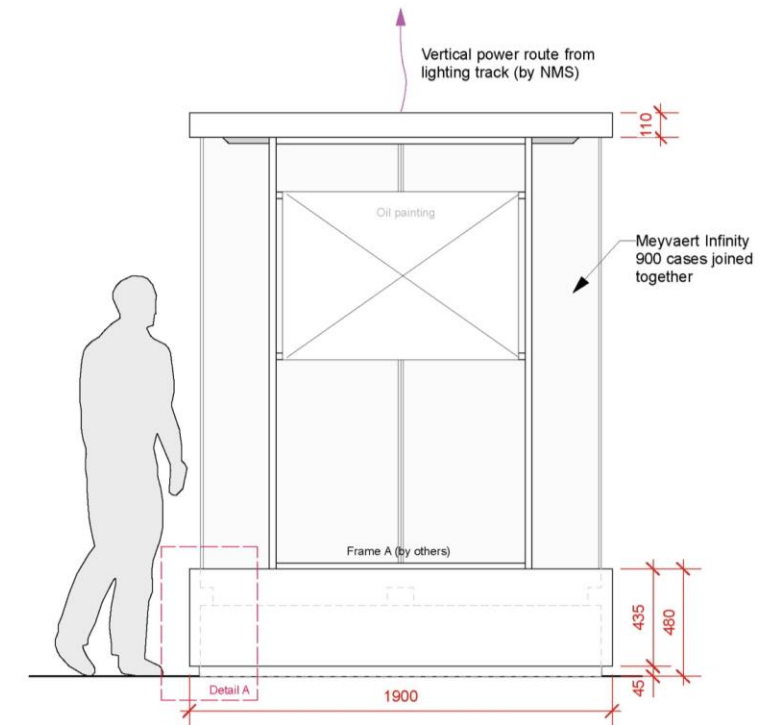

Supporting contractors

Using contractors' knowledge
