

International Symposium Vienna

PROMOTING INTERCULTURAL SCIENCE EDUCATION FOR ADULTS

IMPROVING OUR WORK WITH AND FOR MARGINALISED GROUPS OF ADULT MIGRANTS AND REFUGEES

Time: October 17-18th 2019, Vienna, Austria

Place: Austrian Museum of Folk Life and Folk Art (Volkskundemuseum Wien)
Laudongasse 15-19, A 1080 Vienna

This 1,5 day symposium invites science centers and museums, cultural and educational institutions to learn and reflect on theoretical and practical aspects when working with adult refugees and migrants.

What key competences do Science Educators and Facilitators need?

How can we train our staff?

Can we become thoroughly inclusive learning spaces?

An opportunity to learn, share and discuss

The international PISEA consortium generated a set of practical resources to tackle these questions. Get to know the Booklet of competences, the Staff training resources and the Handbook for adult science education institutions, discuss pilot activities, bring your own examples (poster session) and reflect on structural implementations with invited experts!

Registration:

Registration Fee: 30 € includes coffee breaks and lunch on Friday.

(Please contact us if money issue would prevent you from participating)

Please register online until 30th September 2019.
