

by Ecsite 2 years ago

#Ecsite2015 - Saturday 13 June: main conference day 3

Tristram Stuart, food waste scandal activist, delivered a keynote speech at 10.30 For the rest of the day, participants were then able to pick and choose between ten parallel session strands: food exhibitions, synthetic biology, science and the cities, meta-making and many more were discussed and debated... At the end of the day, winners of the Business Bistro competition were revealed at the Closing ceremony and we got a glimpse of what will await us next year at the 2016 Ecsite Annual Conference in Graz (9-11 June 2016). At night participants said their goodbyes at the Farewell Party, held in a reconverted motorway tunnel!

The mountain makes its own weather. Usually bad? [#Ecsite2015 pic.twitter.com/MuumA98H3h](#)

The observation tool - Thinking moves

Observe visitors and notice if the interactive exhibition facilitate following:

- Observing closely and describing what's there
- Building explanations and interpretations
- Reasoning with evidence
- Making connections
- Considering different points of view
- Uncovering complexity and going below the surface of things
- Wondering and asking questions
- Capturing the heart and forming conclusions
