

List of Exhibits

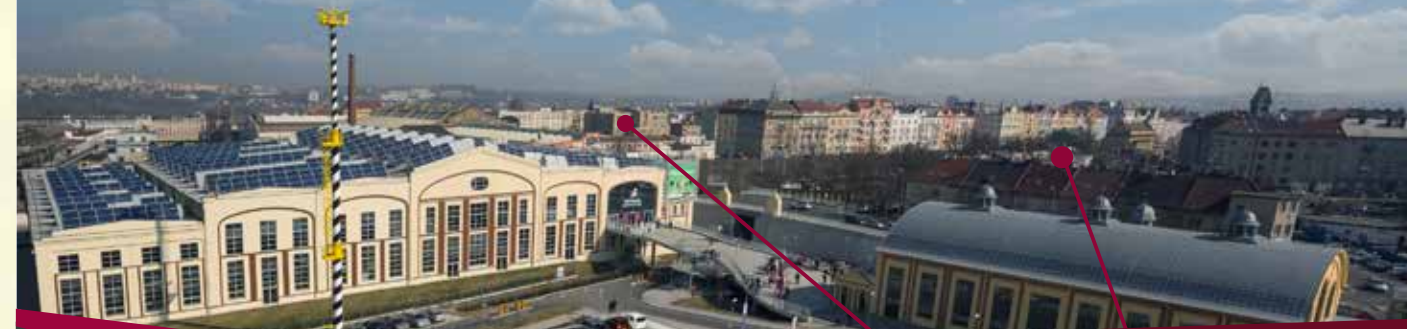

- Catapult
- Superglue
- In your element
- Dyneema test
- Three states: solid, liquid, gas
- Hydrogen
- Toxic elements
- Fart organ
- Eat your elements
- Not dirty
- Butterflies in your stomach
- Fizz! Bang! Pop!
- Fire tornado
- Build the best molecule
- Something smells fishy
- Join the C- team
- Building blocks in chemistry
- Washing powder, soap, creams, toothpaste
- Shadow wall
- Thermochromism
- Behind the scenes in the C-Team kitchen
- Catch the elements" Getaway climbing wall
- Cracking oil!
- The forces of nature
- Experiment table

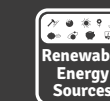

There are five of them and each one addresses problems in their own way. However, they share one thing in common: their love for chemistry.

Learn more about water, oil, fire, smells and odours and chemical compounds. Get to know an unconventional periodic table that will tell you where you can encounter which element in everyday life.

TRAVELING EXHIBITION

6C team

FOR
8+
 YEARS OLD

The C-Team exhibition invites you to explore the fascinating world of chemistry. The visitors will get the knowledge that chemistry is all around us. Do you realize that our body is a unique chemical factory? Do you know that everything is made up of tiny elements- atoms? The C- Team exhibition is divided into four main topics:

- chemistry and the human body,
- materials,
- chemistry and nature,
- the principal of action and reaction.

The beauty of chemistry will be introduced to all visitors with the assistance of the five characters of C -team; the guides through the

Target Group

Educational Area

biology, sports, health education

exhibition. Each character focuses on a specific topic, which seeks to clarify the problem in a playfull way.

The exhibition brings also many interesting curiosities as how nature inspired inventor of Velcro, what products are produced by fractional distillation of crude oil or what is it elasticity and viscosity or what happens when you combine the fire and wind.

Facts and Figures

Area:	500 - 800 m
Interactive exhibits:	26
Languages:	Graphic design is set up for three language versions (current language versions: Czech, English, German)
Produced by:	Continium – Discovery Center Kerkrade
