**AN INSPIRATIONAL HANDS-ON  
EXHIBITION THAT COMBINES  
ARCHITECTURE AND DESIGN IN  
A LIVELY, CREATIVE SPACE.**

*Towers of Tomorrow with LEGO® Bricks*  
features some of the world's most  
dazzling and innovative skyscrapers with  
the world's most popular building brick.

This extraordinary exhibition brings the world's most iconic skyscrapers from North America, Asia, and Australia to life in stunning architectural detail—exclusively constructed using LEGO® bricks. These incredible structures, meticulously crafted with over half a million LEGO bricks, represent thousands of hours of skilled artistry by expert LEGO builders.

Every detail, from the soaring heights to the intricate designs, captures the essence of these real-life architectural marvels.

The exhibition is not just about admiring awe-inspiring creations—it's about building them too! In interactive construction areas, visitors of all ages can channel their inner architect and create their own 'towers of tomorrow' using over 200,000 loose LEGO bricks. The possibilities are endless as you contribute your design to a steadily rising futuristic LEGO metropolis, a collaborative masterpiece growing with each new visitor's vision.

Established in December 2022, Museums of History NSW brings together the historic houses, museums and collections previously in the care of Sydney Living Museums with the vast archives and records in the NSW State Archives Collection. As custodians and storytellers, we are committed to preserving and presenting NSW's unique history. Our places and collections, including the State Archives Collection, comprise some of the most significant historical material in the country. With this as our foundation, we bring history to life through diverse voices and viewpoints, supporting audiences of all backgrounds to gain fresh perspectives on our past.

We are committed to providing greater access to our places and collections through research and creative programming, and to building deep and enduring relationships with First Nations people and communities. With truth-telling and respect at the core of our approach, we strive to ensure our work recognises the complex and contested histories of our places and collections and supports constructive dialogue and debate about our future.

At Flying Fish, we believe exhibitions can do more. As a leading producer of traveling exhibitions for over a decade, we partner with world-class museums and science centers to create extraordinary, impactful experiences. Our exhibitions have welcomed more than ten million visitors worldwide, showcasing the wonders of science, history, culture, and more. We are dedicated to making exceptional, authentic content accessible to all while driving sustainable revenue growth for our clients. By empowering institutions to share their stories globally, we amplify their missions and expand their influence.

Whether developing a new exhibition or adapting existing content for international tours, Flying Fish is more than just a service provider—we are a trusted partner in elevating our clients' reach and impact.

For Museums. By Museums.
